2015 Smarter Balanced Assessment Surveys

The Connecticut State Department of Education (CSDE) sincerely appreciates the feedback already provided related to the administration of the 2015 Smarter Balanced assessments using the three unique surveys that are available to District Test Coordinators, Test Administrators/Teachers and Technology Coordinators. These surveys will be opened for a few more days. This feedback will be used to help the CSDE prepare and improve the administration of the assessments in 2016.

Digital Library: Featured Score Report Module

[Using the Smarter Balanced Score Reporting System Data: District Leaders](#)

Summary: This module helps district leaders understand how to analyze and use summative assessment data in the Smarter Balanced Assessment Consortium Reporting System to make informed decisions to support student progress toward college and career readiness. Instructional videos, interactive learning events, and real-life scenarios explain what data are available, what the data mean, and how to use the data as part of a five-step evidence-based inquiry process. Educators have opportunities to practice analyzing Smarter Balanced assessment data and to consider how they might apply the inquiry process in their own practice. **Please note that the visuals in the reporting system may change over time as they are updated to provide optimal user experience. Connecticut chose to deploy our own reporting system, which will have slightly different visual components.**

Log into the [Smarter Balanced Digital Library](#) to access this Score Report Module. For more information about the Digital Library, visit the [Connecticut State Department of Education Web site](#). The [Digital Library Factsheet](#) outlines the innovative design and collaboration features.
